Alco-Screen 02 SST Training Kit

Economical STT Certification

DOT regulations require any person who uses the Alco-Screen 02 to conduct a DOT screening test be certified as a Screening Test Technician (STT). The Alco-Screen 02 STT Training Kit provides a very economical method to accomplish the training necessary to certify staff as STTs. Recognizing that low cost is one of the main reasons agencies choose to use the Alco-Screen 02 for DOT alcohol screening, we created a training solution that still makes using the Alco-Screen 02 an affordable testing alternative.

Materials to Train Up to Four Staff

One kit can certify up to four students as STTs. Users have permission to make copies of the Student Manual portion of the kit, so there are no additional written materials to purchase to train additional staff. The training curriculum requires each student to perform a minimum of five error-free mock alcohol tests using the Alco-Screen 02. The training kit includes one box of Alco-Screen 02 devices, enough for four students to complete the required five mock collections. If more than four students need certification, the only additional cost is a box of Alco-Screen 02 devices for the mock collections.

Provides Permanent Reference Material

The written material included with each Alco-Screen 02 Training Kit includes the CFR Part 40 Regulations relating to DOT workplace drug and alcohol testing. These regulations provide a handy reference to answer the questions that inevitably arise when doing DOT alcohol screening. The Instructor Manual and the Student Manual also contain much useful information that staff can refer to as necessary.

Paper, Pencil, and DVD Format

The Alco-Screen 02 Training Kit consists of a binder that includes all instructional material, and a DVD that demonstrates how to conduct a DOT screening test using the Alco-Screen 02. Users have permission to make additional copies of the Student Manual. Each chapter of the Student Manual includes self-check questions that enable students to assess their learning for that chapter. This low-tech approach to training eliminates the need for computers and internet access that some other training programs require, allowing maximum flexibility for conducting the training.

Qualifies Individuals as Instructor

An individual who is currently certified as a BAT or as an STT, and who has regularly conducted DOT alcohol testing for at least one year, is qualified to be an STT instructor. An individual who does not meet these requirements may qualify as an STT Instructor by reading all the materials included in the STT Training Kit and passing a written exam on the material.

EACH TRAINING KIT INCLUDES:

Administrators Guide
Instructor Lesson Plans
Instructor Lesson Plans
Student Manual
CFR Part 40 Regulations (DOT Procedures Drug and Alcohol Testing Procedures)
Model Specification and CPL for ASDs
DOT Alcohol Testing Form (ATF)
STT Certificates
Quality Assurance Plan
Alco-Screen 02 Product Insert
1 Box Alco-Screen 02 (24 devices)
1 Alco-Screen 02 STT Training DVD Supplement
