

The Most Interactive Online MRO Assistant Training Available

Students completing this course will receive a certificate of completion, which can be presented to MROCC (Medical Review Officer Certification Council) to register to take the MRO Team Member Certification Exam.

Whether seeking MROCC certification or wanting to gain an in-depth understanding of the MRO process and team member roles, this course teaches Regulations and DOT best practices, better preparing you for success.

What makes AlcoPro's online MRO Assistant Training Course unique?

- Whereas other online courses are "read only" -- like reading a book -- our course offers the highest level of interactivity so you stay engaged and retain more information
- Unit quizzes and final exam are written at a level of difficulty similar to the MROCC exam to better prepare you to pass the MROCC exam
- Online forum allows you to pose questions and interact with other students and an instructor
- Fits with your busy schedule and allows you to learn at your pace
- Course can be viewed on any mobile device

Technical Requirements:

- A computer, tablet or smart phone with an internet connection and speakers
- Adobe PDF reader capabilities (recommended to view course documents)
- If viewing this course on a mobile device, students will need to download the free Litmos app from their mobile app store
