

ALCO-SENSOR IV

Evidential Breath Alcohol Tester

Evidential accuracy in the palm of your hand.

The Alco-Sensor IV is approved by the U.S. Dept. of Transportation as an evidential breath testing device and is the most widely used breathalyzer for DOT and non-DOT workplace testing programs. Easy-to-use and durable, the Alco-Sensor IV provides reliable results for a more accurate, more defensible testing program.

- Evidential accuracy exceeds +/- .005 at .100 BrAC
- Automatic breath sampling feature captures a deep lung breath sample
- Manual breath sampling is available in shy lung situations or when a subject is uncooperative
- Test results display in seconds as a three-digit number
- Intuitive testing menus guide the operator through a test sequence, reducing operator errors
- Fuel cell detects alcohol only
- Can be used without a printer as an Alcohol Screening Device or connected to the RBT IV printer to perform confirmation testing
