

CheckPoint

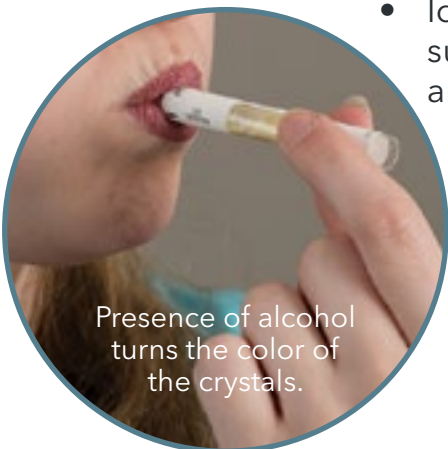

Breath Alcohol Test

Pass/Fail Results Instantly.

The CheckPoint breath alcohol test is an easy-to-use crush and blow alcohol test that provides results in only two minutes. The CheckPoint comes in three cut-off levels and is an ideal alcohol screening device where zero tolerance alcohol programs need to be enforced.

The subject squeezes the tube and blows into the end of the tube for 12 seconds. The yellow crystals turn color when alcohol is detected at the cut-off level.

- Able to detect the presence of alcohol at 0.02%, 0.04% and 0.08% BrAC cut-off levels
- FDA approved
- Easy to use crush and blow screening test
- Disposable and cost-effective test device
- No operator training or certification is required
- Provides Pass/Fail results in only two minutes
- Ideal for non-regulated workplace testing, corrections, military, substance abuse or other markets where safety and compliance are important

Presence of alcohol turns the color of the crystals.

CCP02200	0.020% cut-off threshold	\$2.65	\$2.45	\$2.25
CCP04200	0.040% cut-off threshold	\$2.65	\$2.45	\$2.25
CCP08200	0.080% cut-off threshold	\$2.65	\$2.45	\$2.25

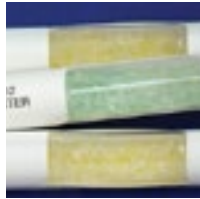

EASE OF USE

Step 1
Crush the test ampule between your fingers.

Step 2
Have the subject blow into the end of the test ampule for 12 seconds.

Step 3
At 2-minutes, observe the color in the test ampule. A blue or green color indicates the presence of alcohol at the designated cut-off level.
